CHERRY HILL NURSERIES

THURLOWS & STRANGER, INC.

West Newbury ..:: Massachusetts

Nurseries at West Newbury and Newburyport

Telephone Newburyport—Homestead 2-6688

Members:

Mass. Nurserymen's Association

New England Nurserymen's Association

American Association of Nurserymen

American Peony Society

We cordially invite you to visit our Nurseries at West Newbury and Newburyport where, for over one hundred years, the Cherry Hill Nurseries have been engaged in the growing of fine plants and trees. This long experience enables us to supply you with strong hardy plants that are sure to thrive in our rugged New England climate. Both Nurseries are located on improved roads easily accessible the year around.

If impossible to visit the nursery, we invite you to order by telephone or mail. We use the greatest possible care in the selection of all stock and we will gladly pay return charges and replace any stock not satisfactory if notified within five days after arrival of goods.

We are always glad to have customers order stock at the nursery where it can be seen, but cannot dig orders while the customer waits to take them. We will gladly tag and reserve special plants if the type and size wanted is other than the usual nursery run, but as orders through the spring are promised several days in advance most of the time, it will be necessary to dig them in rotation as ordered and either hold them to be called for or to be delivered by our trucks.

The above does not apply to Roses, Fruit trees or any of the various shrubs or evergreens that we often have dug ahead and ready to ship.

During the **spring** planting season, our Nurseries are open from 8:00 A.M. until 5:00 P.M. every weekday and from 10:00 A.M. until 5:00 P.M. on Sundays. However, no orders can be dug on Sundays but orders may be left for later delivery. We are closed **Saturdays** and **Sundays** during the **summer** and **winter** months.

For conditions of Sale see Page 65.

For more enjoyable living, we offer the trees and plants in this booklet.

GIFT CERTIFICATES

We are prepared to issue Gift Certificates, redeemable by us. This certificate will bear the recipient's name and yours as donor. For anyone interested in a garden or planting the home grounds this makes a very acceptable Christmas or Anniversary gift.

Evergreen Trees

All our evergreen trees are dug with a ball of earth adhering to the roots and burlapped (B.&B.). This insures against drying of the roots. Prices include this service.

Abies concolor

WHITE FIR

Tall-growing Fir from the Rocky Mountains. Symmetrical habit.

	Each	Per 10
18 to 24 in.	\$6.00	

Chamaecyparis obtusa gracilis

HINOKI CYPRESS

Dark glossy green foliage in rounded obtuse fans. The growth is irregular and very interesting forms are developed.

	Each	Per 10
15 in.	\$5.75	
18 in.	6.75	65.00
2 ft.	8.00	

Chamaecyparis o. nana

DWARF HINOKI CYPRESS

Interesting form of very slow growth. For rock work or where a dwarf evergreen is desired.

6 to 9 in.	6.00
-----------------	------

Chamaecyparis plumosa aurea

GOLDEN PLUMED CYPRESS

Of the same growth as the green form, but the new growth tipped yellow. Rather slow in growth.

18 in.	5.00
2 ft.	6.00

Juniperus chinensis pfitzeriana

PFITZER'S JUNIPER

Spreading growth attaining a height of four feet. The undulating branches give a pleasing effect.

15 in. spread	5.25	45.00
1½ ft. spread	6.50	60.00
2 ft. spread	8.00	

Juniperus c. glauca hetzi

HETZ JUNIPER

This resembles Pfitzer's Juniper in habit of spreading growth. Attractive glaucous green foliage.

15 in. spread	5.25	45.00
1½ ft. spread	6.50	60.00
2 ft. spread	8.00	

Juniperus horizontalis depressa plumosa**PLUMED SPREADING JUNIPER**

Especially good for a ground cover as the plants make thick, low carpets. The foliage is bright green, changing to an attractive purple as winter approaches.

	Each	Per 10
15 in.	4.75	45.00
1½ ft.	6.00	55.00

Juniperus sabina**SABIN JUNIPER**

Dwarf spreading habit with grayish green foliage.

15 in. spread	3.75	35.00
18 in. spread	5.00	45.00

***Juniperus squamata meyeri* MEYER'S JUNIPER**

Unusual in coloring is this semi-erect evergreen with its intense steel blue foliage. Of dwarf growth.

12 in.	3.25	30.00
15 in.	4.00	35.00
18 in.	5.00	

Picea abies (excelsa)**NORWAY SPRUCE**

Tall, fast growing evergreen of conical shape with medium green foliage. Very good for wind breaks.

2 ft.	4.50	42.50
2½ ft.	5.25	50.00
3 ft.	6.50	60.00

Picea glauca (canadensis)**WHITE SPRUCE**

An attractive tall-growing evergreen of shapely habit. Hardy in exposed situations.

3 ft.	7.75	
4 ft.	9.75	
5 ft.	13.00	

Picea pungens**COLORADO SPRUCE**

Stiff upright growth with long needles, light green in color. Very hardy and will grow in cold, exposed situations.

2 ft.	5.50	
2½ ft.	6.50	60.00
3 ft.	8.00	75.00
3½ ft.	10.00	95.00

Picea pungens Moerheim**BLUE SPRUCE**

Grafted plants from a specially selected blue form.

12 in. in cans	5.00	47.50
---------------------	------	-------

Pinus mugo mughus**DWARF MUGHO PINE**

The spreading branches are clothed with crisp, dark green needles. Rather slow in growth.

9 in. spread	4.25	40.00
12 in. spread	5.00	47.50
15 in. spread	6.50	60.00

Pinus nigra austriaca**AUSTRIAN PINE**

A very hardy Pine of fast growth and broad irregular habit. Especially good for seashore planting.

	Each	Per 10	Per 100
2½ ft.	7.50		
3 ft.	9.50	90.00	
4 ft.	13.00	125.00	1200.00
5 ft.	17.50	170.00	

Pinus resinosa**RED PINE**

Of very rapid growth with long dark green needles.

5 ft.	12.50	115.00
6 ft.	16.00	

Pinus strobus**WHITE PINE**

One of the handsomest of our native evergreens. Soft green foliage.

2 ft.	5.00	45.00	
2½ ft.	6.00	55.00	500.00
3 ft.	7.00	65.00	600.00
4 ft.	8.50		

Pinus thunbergi**JAPANESE BLACK PINE**

Resembling the Austrian Pine, but of much more irregular growth. Picturesque and good for seashore planting.

2 ft.	6.00	55.00	
2½ ft.	7.00	65.00	
3 ft.	8.50		

PLANTING ALONG WOOD PATH IN OUR NURSERIES

Pseudotsuga taxifolia**DOUGLAS FIR**

Coming from the Rocky Mountains this evergreen will withstand cold and wind. Short needles of dark green to bluish green.

	Each	Per 10	Per 100
3 ft.	8.00		
4 ft.	10.00		

Retinospora (See Chamaecyparis)**Taxus baccata repandens****ENGLISH SPREADING YEW**

Low-spreading habit with dark green foliage. Does especially well in the shade.

15 in.	7.00	65.00
18 in.	9.00	85.00

Taxus cuspidata**SPREADING YEW**

Does well in sun or shade. The medium green foliage is pleasing in texture. Red berries in the fall. Fine for group or foundation planting.

15 in.	6.25	60.00
18 in.	8.00	75.00
2 ft.	11.00	105.00

Taxus c. capitata**UPRIGHT YEW**

The upright form makes most satisfactory hedges, which may be kept trimmed from three feet to as tall as desired.

1½ ft.	8.00	75.00	700.00
2 ft.	10.00	95.00	900.00
2½ ft.	14.00	135.00	

Taxus c. densiformis DENSE SPREADING YEW

An improved form of the spreading type. Compact, bushy growth and heavy foliage.

15 in.	7.00	65.00
1½ ft.	9.00	85.00
2 ft.	11.00	

Taxus c. nana (brevifolia)**DWARF YEW**

Dark green foliage throughout the year. Of slow growth and spreading habit.

12 in.	5.50	52.50
15 in.	7.50	70.00
18 in.	10.00	

Taxus c. nigra**DARK SPREADING YEW**

Dense spreading habit with heavy dark green needles. Somewhat slower in growth than Taxus cuspidata.

15 in.	7.00	67.50
-------------	------	-------

Taxus c. Thayer**THAYER'S YEW**

A new spreading form of compact growth.

	Each	Per 10	Per 100
15 in.	6.25	60.00	
18 in.	8.00	75.00	

Taxus media**HYBRID SPREADING YEW**

Compact spreading growth. Foliage dark green.

15 in.	6.25	60.00	575.00
18 in.	8.00	75.00	725.00
2 ft.	11.00		

Taxus m. Hatfield**HATFIELD'S UPRIGHT YEW**

Many erect stems of twiggy growth with dark green foliage. Unequalled for hedges or wherever a specimen plant may be desired.

15 in.	6.75	65.00	600.00
18 in.	8.25	80.00	750.00
2 ft.	10.00	95.00	
2½ ft.	14.00		
3 ft.	18.00		

Taxus m. Hicks**HICK'S UPRIGHT YEW**

Upright in growth with heavy dark green foliage. Bears bright red berries in October. Our plants have been pruned and are much bushier than the usual grade.

15 in.	6.00	57.50	540.00
18 in.	7.75	75.00	700.00
2 ft.	9.00	85.00	
2½ ft.	13.00	125.00	
3 ft.	17.00		
3½ ft.	22.00		
4 ft.	35.00		

Thuya o. globosa**GLOBE ARBORVITAE**

Dwarf and globular in growth.

12 in. spread	3.00	26.00	250.00
15 in. spread	3.75	34.00	
18 in. spread	4.75	45.00	

Thuya o. nigra**DARK AMERICAN ARBORVITAE**

This strain called Wintergreen is of broad, pyramidal growth with bright green foliage. The plants are uniform and make fine hedges.

3 ft.	6.25	55.00	500.00
4 ft.	8.00	75.00	700.00
5 ft.	10.00	90.00	850.00
6 ft.	13.50	125.00	

Thuya o. pyramidalis**PYRAMIDAL ARBORVITAE**

Narrow, columnar growth. The foliage is dark green throughout the winter.

	Each	Per 10	Per 100
3 ft.	6.00	55.00	
4 ft.	7.00	62.50	
5 ft.	8.75	85.00	800.00
6 ft.	10.50	100.00	950.00

***Thuya o. wareana* SIBERIAN ARBORVITAE**

Slow in growth making a dense broad pyramid. Foliage thick and dark green. Hardy and satisfactory.

2 ft.	5.00	47.50	450.00
2½ ft.	6.00	55.00	525.00
3 ft.	7.50	70.00	650.00

***Tsuga canadensis* CANADA HEMLOCK**

Graceful tree with short dark green needles of pleasing texture.

1½ ft.	5.50	50.00
2 ft.	7.00	67.50
2½ ft.	8.00	77.50
3 ft.	11.00	105.00
3½ ft.	12.50	120.00
4 ft.	15.00	140.00
5 ft.	19.00	

***Tsuga carolinianum* CAROLINA HEMLOCK**

Dense dark green needles. More upright in growth than the Canadian Hemlock.

2½ ft.	8.00
3 ft.	10.00
3½ ft.	11.00
4 ft.	14.00
5 ft.	19.00

WHY NOT HAVE CHERRY HILL LANDSCAPE YOUR HOME GROUNDS

Evergreen Shrubs

All Evergreen shrubs, except Pachysandra and Vinca are dug with a ball of earth and prices quoted include this service.

Daphne cneorum

ROSE DAPHNE

Dwarf spreading plants bearing clusters of small, very fragrant pink flowers in May and occasionally throughout the summer.

	Each	Per 10
Strong plants in pots		
6 to 8 in.	2.00	18.00
8 to 10 in.	2.40	22.00
10 to 12 in.	3.00	

Euonymus fortunei coloratus

BLOOD-LEAVED BITTERSWEET

Rapid growth, green turning to red in winter.

2 yr.	1.00	9.00
------------	------	------

Euonymus f. radicans

EVERGREEN BITTERSWEET

Strong-growing vine with small dark evergreen leaves.
Fine for covering rock work.

2 yr.	1.00	9.00
------------	------	------

RHODODENDRONS GIVE MASSES OF COLOR AND ARE ATTRACTIVE AT ALL TIMES

Euonymus f. Sarcoxie UPRIGHT BITTERSWEET

New. A desirable new variety of upright, bushy growth forming a small shrub.

	Each	Per 10
2 yr.	1.65	15.00

Euonymus f. vegetus**BROAD-LEAVED BITTERSWEET**

Broad rounded leaves of deep green with bright orange and red fruits. Fine for ground cover or vine.

2 yr. strong	1.65	15.00
--------------------	------	-------

Hedera helix baltica HARDY ENGLISH IVY

With a little winter protection, this is an evergreen. Good for a shady ground cover. We grow two plants in each pot.

3½ in. pots75	6.50
-------------------	-----	------

Ilex crenata convexa**BOX-LEAF HOLLY**

A charming dwarf evergreen with small glossy green leaves about the size of dwarf Box. Black berries. Fine for the evergreen border.

15 in.	6.00	55.00
18 in.	8.00	

Kalmia latifolia**MOUNTAIN LAUREL**

The flat heads of pink and white flowers are most attractive. Grows well in shade. Nursery grown plants.

15 in.	5.50	50.00
18 in.	6.75	65.00

AN INTERESTING SPRING GARDEN

Leucothoe catesbaei DROOPING LEUCOTHOE

Frond-like stems with shining green leaves. White flowers.

	Each	Per 10	Per 100
12 in. clumps	3.50	32.00	

Pachysandra terminalis JAPANESE SPURGE

A hardy, evergreen perennial of spreading habit, especially useful as a ground cover in dry, shady spots.

Strong Plants	2.50	22.00
---------------------	------	-------

Pieris floribunda (Andromeda)**LILY-OF-THE-VALLEY BUSH**

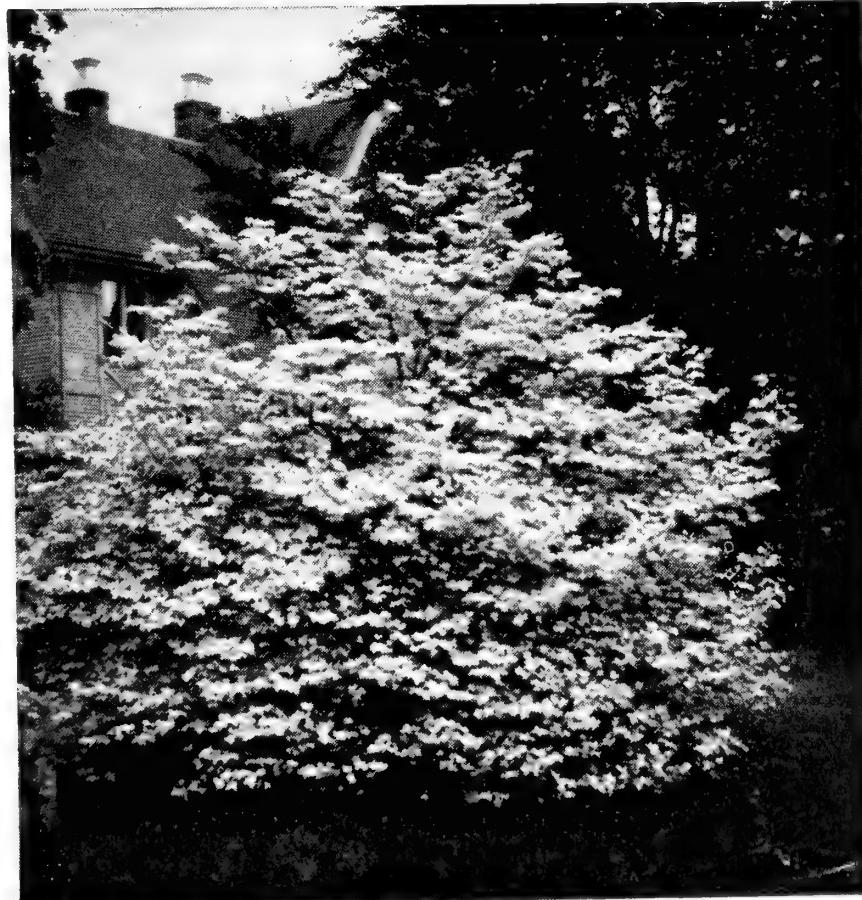

A charming low-spreading bush with medium green foliage. The nodding white bell-shaped flowers, borne on erect spikes, bloom early in the spring.

12 in.	4.75	45.00
15 in.	6.50	

Pieris japonica JAPANESE ANDROMEDA

Of more erect habit than *P. floribunda*, with dark lustrous foliage and long racemes of white bell-shaped flowers.

12 to 15 in.	3.00	27.50
15 to 18 in.	5.00	
18 to 24 in.	7.00	65.00
2 ft.	8.50	

OUR PINK DOGWOOD IN BLOOM

Rhododendron carolinianum**CAROLINA RHODODENDRON**

Semi-dwarf plant with narrow leaves. Free-flowering in habit, the blossoms range through shades of pink.

	Each	Per 10
12 in.	4.25	
15 in.	5.50	
18 in.	7.00	

Rhododendron catawbiense**CATAWBA RHODODENDRON**

Our native Rhododendron from the Carolina mountains. Bushy growth and deep green foliage. Flowers various shades of pink.

18 in.	9.00
-------------	------

Rhododendron laetevirens**WILSON RHODODENDRON**

Small leaves (2½ in.) of deep green and low compact habit of growth. Small light pink flowers. Very satisfactory where a dwarf form is desired.

12 in. spread	6.00	55.00
15 in. spread	7.50	70.00
18 in. spread	10.00	90.00

Rhododendron maximum**ROSEBAY RHODODENDRON**

Long, broad dark green leaves and tall growth. Delicate pink buds and white flowers bloom later than the others. Excellent for background and woods plantings.

1½ ft.	6.00
2 ft.	8.00
2½ ft. clumps	12.00
3 ft. clumps	14.00

A HOME MADE MORE BEAUTIFUL BY OUR PLANTING

RHODODENDRON HYBRIDS

With their large heads of flowers, varying in shades of bright crimson, pink or white, these are among our most striking of flowering shrubs. When not in bloom, the dark evergreen leaves give pleasing foliage effects. Many of the hybrids are not suitable as far north as this and we have selected and grown those of *Rhododendron catawbiense* parentage which have proved hardy. In planting, mix the soil with peat or leafmold, which has an acid reaction and is retentive of moisture during the summer. Heavy watering in the late fall will provide the plants with sufficient sap to carry them through the dormant winter period.

15 in.	8.50
18 in.	11.00
21 in.	13.00
2 ft.	15.00
2½ ft.	18.00

Boule de Neige. A slow-growing variety forming bushy compact plants. White flowers. Sizes 12 in. @ \$7.50 each; 15 in. @ \$10.00 each.

Caractacus. Dark crimson red. Compact in growth. Sizes 15 in., 18 in.,

Catawbiense alba. Pink buds opening with white flowers. A fine hardy variety. Sizes 15 in., 18 in.

Dr. H. C. Dresselhuys. Rich deep red. Size 18 in.

Ignatius Sargent. Very bright pink or light red. Sizes 15 in., 18 in., 21 in.

RHODODENDRONS ADD TO THE GLORY IN JUNE

Purpureum elegans. Rich deep purple. Very hardy with deep green foliage. Size 15 in.

Roseum elegans. Rose pink, bushy habit of growth and one of the best for foliage effects. Sizes 15 in., 18 in., 21 in., 2 ft., 2½ ft.

Rhododendron Hybrid Seedlings

Grown from seed from selected named varieties, these produce blooms of red, pink, white or lavender. We cannot guarantee the colors.

	Each	Per 10	Per 100
15 in.	6.00		
18 in.	7.75		
2 ft.	10.00		
2½ ft.	14.00		

Vinca minor

PERIWINKLE

A trailing evergreen vine useful for cover in shady spots. Soft blue flowers in the spring.

Strong Plants35	3.00	22.00
---------------------	-----	------	-------

Vinca m. Bowles' Variety

An improved form of the above with deep green foliage and the large blue flowers appear intermittently throughout the summer.

Strong plants50	4.50	40.00
---------------------	-----	------	-------

Deciduous Trees

Acer platanoides**NORWAY MAPLE**

Broad, round-headed tree with deep green leaves. Very satisfactory for lawn or street planting.

	Each	Per 10	Per 100
8 to 10 ft.	10.50	95.00	900.00
10 to 12 ft.	13.00	125.00	
12 to 14 ft.	16.00	155.00	

Acer p. Schwedleri nigra (Pat. No. 735)**CRIMSON KING MAPLE**

Brilliant crimson foliage retaining its color throughout the summer. A striking novelty.

6 to 7 ft.	8.00
7 to 8 ft.	10.00
8 to 9 ft.	12.00

Acer saccharinum**SILVER MAPLE**

A Maple of rapid growth forming a rounded, branching head. Leaves deeply lobed.

10 to 12 ft.	10.00
12 to 14 ft.	12.50

Acer saccharum**SUGAR MAPLE**

One of our finest shade trees for lawn or street planting. Clean, straight growth and well-developed head.

8 to 10 ft.	10.50	95.00
10 to 12 ft.	13.00	125.00
12 to 14 ft.	16.00	155.00

Betula papyrifera**CANOE BIRCH**

White flaking bark on trunk and larger branches. **For Spring planting only.**

5 to 6 ft. B.&B.	6.00
6 to 8 ft. B.&B.	8.00
8 to 10 ft. B.&B.	12.00
Clumps, 3 and 4 stems,	
4 to 5 ft. B.&B.	6.00
5 to 6 ft. B.&B.	8.00
6 to 7 ft. B.&B.	10.00

Betula pendula gracilis**CUT-LEAF WEEPING BIRCH**

Graceful weeping habit and finely cut leaves. With age the bark of the trunk and branches becomes white. **For Spring planting only.**

6 to 8 ft. B.&B.	8.50
8 to 9 ft. B.&B.	11.50

Cercis canadensis**REDBUD**

A small tree bearing clusters of rosy pink, small flowers in the spring before the leaves appear. Attractive light green foliage.

	Each	Per 10
3 to 4 ft. B.&B.	3.00	27.50
4 to 5 ft. B.&B.	4.00	35.00
5 to 6 ft. B.&B.	6.00	
6 to 7 ft. B.&B.	7.50	

Chionanthus virginicus**WHITE FRINGE**

Small tree with large dark green leaves and long feathery white blooms and dark blue fruits.

18 in. B.&B.	2.50
2 ft. B.&B.	3.50
3 ft. B.&B.	5.00

Cladrastis lutea**YELLOWWOOD**

Ornamental tree of spreading growth. White fragrant flowers borne in long racemes in June.

5 ft. B.&B.	9.00
6 ft. B.&B.	12.00
7 ft. B.&B.	15.00
8 ft. B.&B.	18.00

Cornus florida**WHITE FLOWERING DOGWOOD**

Small tree of pleasing habit of growth. The masses of white fourbract flowers in the early spring are followed by bright red berries. One of the best fall foliage plants, as the orange-scarlet leaves remain for a considerable time.

3 ft. B.&B.	5.00	45.00
4 ft. B.&B.	7.50	70.00
5 ft. B.&B.	9.50	90.00
6 ft. B.&B.	12.00	115.00
7 ft. B.&B.	15.00	

Cornus f. rubra**RED FLOWERING DOGWOOD**

The flower bracts are deep pink or red and the masses of bloom are especially attractive.

3 ft. B.&B.	7.50	70.00
3½ ft. B.&B.	9.00	85.00
4 ft. B.&B.	11.00	100.00
5 ft. B.&B.	14.00	

Cornus kousa**JAPANESE DOGWOOD**

Creamy white flowers in June are followed by large, red fruit resembling cherries.

3 ft. B.&B.	6.00
4 ft. B.&B.	8.00

Crataegus cordata (phaenopyrum)**WASHINGTON HAWTHORN**

Bushy, upright growth with dark green leaves. The white flowers are followed by shining red berries.

	Each	Per 10
4 ft. B.&B.	6.50	60.00
5 ft. B.&B.	8.50	80.00
6 ft. B.&B.	11.00	
7 ft. B.&B.	14.00	
8 ft. B.&B.	18.00	

Crataegus oxyacantha**DOUBLE FLOWERED HAWTHORN**

The flowers are borne in clusters of small rosettes during the latter part of May.

Paul's Scarlet

4 to 5 ft.	4.50
-----------------	------

Double Pink

4 to 5 ft.	4.50
-----------------	------

***Fagus sylvatica riversi* RIVERS PURPLE BEECH**

Large tree of excellent habit of growth. The leaves are reddish purple throughout the summer.

3 ft. B.&B.	12.50
------------------	-------

***Gleditsia triacanthos inermis* HONEY LOCUST**

Dark green foliage of lacy compound leaves giving a light shade. A fast growing tree of good habit.

6 to 8 ft.	8.00
8 to 10 ft.	10.50

Gleditsia triacanthos inermis* Moraine (Pat. No. 836)*MORAINE LOCUST**

A selected strain of the above without seed pods. Tall and vase shaped as it matures.

5 to 6 ft.	7.00	65.00
6 to 7 ft.	9.00	85.00
7 to 8 ft.	11.00	

***Halesia monticola* MOUNTAIN SILVERBELL**

Attractive tree with dark green leaves, bearing in May quantities of pendulous bell-shaped flowers of glistening white.

3 to 4 ft. B.&B.	5.00
4 to 5 ft. B.&B.	6.50
5 to 6 ft. B.&B.	8.00

Laburnum vossi**GOLDEN CHAIN**

Small tree with dark green leaves bearing long racemes of golden yellow flowers. For Spring planting only.

5 to 6 ft. B.&B.	7.50
-----------------------	------

MALUS — The Flowering Crab-apples

This group of small trees, attaining a height of eight to twenty feet, is one of the most satisfactory for northern New England. A wealth of bloom in May, varying from pure white to bright scarlet, is followed by another season of color in the fall, when the small fruits of yellow or red, lasting until freezing weather, provide very welcome food for the birds. **For late transplanting, after about May 1st, these should be dug with a ball of earth.** Extra charge for balling 3 ft. size 90 cents; 4 ft. size \$1.50; 5 ft. size \$2.00; 6 ft. size \$3.00.

Malus baccata, variety FLOWERING CRAB

A variety which we have not named, of upright pyramidal growth. White flowers succeeded by bright red, cherry-like fruit which remains for a long time.

Each	
5 to 6 ft.	6.00

Malus Almey**ALMEY CRAB**

Large red flowers with white centers giving a charming effect. Dark red fruit in abundance carried until hard freezes. A new variety of merit.

4 to 5 ft.	4.50
5 to 6 ft.	6.00
6 to 7 ft.	8.00

Malus atrosanguinea**CARMINE CRAB**

Beautiful carmine buds and crimson flowers. Red fruit.

3 to 4 ft.	3.50
4 to 5 ft.	4.50
5 to 6 ft.	6.00

Malus eleyi**ELEY CRAB**

Large, rose-pink flowers followed by red fruit, like cherries.

4 to 5 ft.	4.50
5 to 6 ft.	6.00
6 to 7 ft.	8.00

Malus floribunda**JAPANESE FLOWERING CRAB**

Multitudes of pink buds opening to white. Small red fruit.

3 to 4 ft.	3.50
4 to 5 ft.	4.50
5 to 6 ft.	6.00

Malus hopa HOPA CRAB

Rose-pink flowers and bronze green foliage. Fruit red.

Each

4 to 5 ft.	4.50
5 to 6 ft.	6.00

Malus lemoinei LEMOINE CRAB

A valuable new hybrid with red flowers followed by red, cherry-like fruit.

4 to 5 ft.	4.50
5 to 6 ft.	6.00

Malus Red Silver

Attractive reddish leaves with a silvery under-color. Red flowers followed by red fruit.

4 to 5 ft.	4.50
5 to 6 ft.	6.00

Malus robusta CHERRY CRAB

Strong, vigorous growth. Flowers white followed by red and yellow fruit the size of cherries.

4 to 5 ft.	4.50
5 to 6 ft.	6.00
6 to 7 ft.	8.00

Malus sargentii SARGENT CRAB

Dwarf, spreading habit. Flowers white, fruit small and dark red.

3 to 4 ft.	8.00
-----------------	------

AN ATTRACTIVE GARDEN FOR A CITY LOT

Malus scheideckeri SCHEIDECKER CRAB

Small pyramidal tree. Lovely semi-double soft pink flowers and yellow fruit.

	Each	Per 10
4 to 5 ft.	4.50	
5 to 6 ft.	6.00	

Malus spectabilis CHINESE CRAB

Large, semi-double flowers of pale pink followed by yellow fruit.

3 to 4 ft.	3.50
4 to 5 ft.	4.50

Malus theifera (hupehensis) TEA CRAB

Fragrant, delicate pink flowers are borne in great abundance. Small yellow and red fruit.

4 to 5 ft.	4.50
5 to 6 ft.	6.00

Malus zumi calocarpa ZUMI CRAB

Compact habit of growth. (Rather dwarf and spreading habit.) Pink buds opening into white flowers. Small round fruit of bright red.

4 to 5 ft.	5.00
5 to 6 ft.	6.50

Platanus occidentalis AMERICAN PLANE TREE

(Oftentimes known as Buttonwood or Sycamore) Mature trees attain large size with pleasing medium green foliage.

8 to 10 ft.	10.00
------------------	-------

Salix niobe GOLDEN WEEPING WILLOW

A tree of rapid growth with slender, drooping branches. The yellow bark is very decorative during the winter. **For Spring planting only.**

5 to 6 ft.	3.00	27.00
6 to 8 ft.	4.00	36.00
8 to 10 ft.	7.00	65.00

Sorbus aucuparia EUROPEAN MOUNTAIN ASH

Small tree with fine foliage. Fragrant, white flowers are followed by clusters of scarlet berries in the early fall.

8 to 10 ft.	9.00
------------------	------

Ulmus pumila SIBERIAN ELM

Very rapid growth and broad spreading habit. Smooth, light gray bark and medium green leaves smaller than American Elm.

6 to 8 ft.	6.00	55.00
-----------------	------	-------

Deciduous Shrubs

Azalea arborescens**SWEET AZALEA**

Bushy growth with dark green leaves. The white flowers appear in June to July and are very fragrant.

Each	Per 10
------	--------

12 to 15 in. B.&B.	4.50
15 to 18 in. B.&B.	5.50

Azalea calendulacea**FLAME AZALEA**

The most colorful of our native Azaleas. The clusters of flowers range from lemon-yellow to fiery-red.

15 to 18 in. B.&B.	5.00	47.50
18 to 24 in. B.&B.	6.00	55.00
2 to 2½ ft. B.&B.	7.00	67.50
2½ to 3 ft. B.&B.	9.00	

Azalea gandavense GHENT HYBRID AZALEA

Hybrids of our native Azaleas and Caucasian types noted for their brilliant colors.

12 in. B.&B.	5.00
15 in. B.&B.	6.00
18 in. B.&B.	7.50

Bouquet de Flore — pink and white. 12 in.

Coccinea Speciosa — vivid orange red. 12 in., 15 in.

Fanny — single rose-pink. 12 in., 15 in.

Nancy Waterer — single golden yellow. 12 in.

Narcissiflora — double sulphur-yellow. 12 in., 15 in.

Pallas — orange and salmon-red. 12 in., 15 in., 18 in.

Raphael de Smet — double soft pink or blush. 12 in.

Azalea Hinomayo

Rather spreading habit of growth. Flowers of soft clear pink in abundance.

12 to 15 in. B.&B.	6.00
-------------------------	------

Azalea kaempferi**TORCH AZALEA**

A popular, free-flowering variety of intense coral-pink to flame-red. Very attractive as a landscape accent.

15 to 18 in. B.&B.	5.50	50.00
18 to 24 in. B.&B.	7.00	

Azalea ledifolia alba**SNOW AZALEA**

Semi-evergreen. The large pure white blooms are especially attractive.

12 to 15 in. B.&B.	4.50	40.00
15 to 18 in. B.&B.	6.00	55.00
18 to 24 in. B.&B.	8.50	

(Azaleas continued on next page)

*(Azaleas continued)***Azalea mucronulatum MONGOLIAN AZALEA**

Hardy, tall-growing variety bearing delicate rosy-lilac flowers. Blooms very early and makes an attractive display.

	Each	Per 10	Per 100
15 to 18 in. B.&B.	5.00		
18 to 24 in. B.&B.	6.00		

Azalea obtusum

Very dwarf, forming low, broad plants. Flowers small, purple. Good for rock gardens.

15 to 18 in. B.&B.	5.50
-------------------------	------

Azalea poukhanensis**KOREAN AZALEA**

Spreading growth, semi-evergreen. The large rose-purple flowers appear very early.

12 to 15 in. B.&B.	5.00	45.00
15 to 18 in. B.&B.	6.00	

Azalea schlippenbachii**ROYAL AZALEA**

Large (3 inch) flowers of shell pink in early May. The plants are of compact symmetrical growth with attractive foliage throughout the summer. Hardy.

12 to 15 in. B.&B.	5.00
15 to 18 in. B.&B.	6.50

Azalea vaseyi**PINK SHELL AZALEA**

A native of the Carolina mountains. It is hardy in northern New Hampshire. The deep shell pink flowers appear in early spring.

15 to 18 in. B.&B.	5.00
-------------------------	------

Berberis thunbergii**JAPANESE BARBERRY**

Popular for low hedges and borders of shrub plantings as barriers against dogs. Bright scarlet fruit.

18 to 24 in.75	6.50	60.00
-------------------	-----	------	-------

Berberis t. atropurpurea**RED-LEAVED BARBERRY**

Very attractive with bronze-red foliage all summer.

18 to 24 in.	1.40	13.50
-------------------	------	-------

Buddleia, Charming**BUTTERFLY BUSH**

Long spikes of soft lilac-pink flowers in late summer.

2 yr. plants in pots	1.50	14.00
---------------------------	------	-------

Buddleia, Ile de France

Deep rosy-lilac flowers in August to frost.

	Each	Per 10
2 yr. plants in pots	1.50	14.00

Buddleia, White Cloud

Well filled spikes of white flowers.

2 yr. plants in pots	1.50	14.00
---------------------------	------	-------

Clethra alnifolia**SUMMERSWEET**

Dark glossy green foliage and upright spikes of white flowers in late summer. Good in shade.

1½ to 2 ft.	1.25	11.50
2 to 2½ ft.	1.75	16.00

Cornus alba**RED-BARKED DOGWOOD**

Large shrub, bark bright red in winter months.

2 to 3 ft.	1.35	12.00
3 to 4 ft.	1.60	

A SPECIMEN HYBRID LILAC ADDS INTEREST TO YOUR GARDEN

Cotoneaster adpressa praecox**EARLY COTONEASTER**

Spreading growth with arching branches and dark green foliage. Large, bright red berries throughout the autumn.

	Each	Per 10
12 to 15 in. B.&B.	3.25	30.00
15 to 18 in. B.&B.	4.00	35.00

Cotoneaster divaricata**SPREADING COTONEASTER**

Medium height with arched, spreading branches. Leaves small and shining green; dark red ornamental fruit.

1½ to 2 ft. B.&B.	2.50	22.50
2 to 3 ft. B.&B.	3.25	30.00

Cotoneaster horizontalis ROCK COTONEASTER

Dwarf spreading growth. Small shining green leaves with small pink flowers followed by scarlet berries.

6 to 9 in. potted	2.00
9 to 12 in. potted	2.50

Cydonia japonica rubra FLOWERING QUINCE

The very early blossoms of red are followed by large yellow fruit.

1½ to 2 ft.	1.75	16.00
------------------	------	-------

Deutzia gracilis**DWARF DEUTZIA**

Small, compact bush with single white flowers in May.

12 to 15 in.	1.20	11.00
15 to 18 in.	1.45	13.00

Eleagnus angustifolia**RUSSIAN OLIVE**

Grayish green foliage, silvery yellow fruit. Very hardy for seashore planting.

3 to 4 ft.	2.25	20.00
4 to 5 ft.	3.00	27.50
5 to 6 ft.	3.75	

Euonymus alatus CORK-BARKED EUONYMUS

Very attractive. Of symmetrical growth the limbs heavily encrusted with corky wings. Brilliant red foliage in the fall.

1½ to 2 ft.	2.25	20.00
------------------	------	-------

Euonymus a. compacta**DWARF EUONYMUS**

A dwarf form of E. alatus. The foliage turns fiery red in the autumn.

15 to 18 in.	2.25
1½ to 2 ft.	2.75

***Euonymus yedoensis* YEDDO EUONYMUS**

Broad heavy growth. The autumn foliage is deep red and the clusters of fruit orange and scarlet.

	Each	Per 10
2 to 3 ft.	1.50	13.50
3 to 4 ft.	2.00	

Forsythia Beatrix Farrand

Originated at the Arnold Arboretum. Large clear yellow flowers. Considered hardier than most varieties.

2 to 3 ft.	2.10	20.00
-----------------	------	-------

Forsythia intermedia spectabilis**SHOWY GOLDEN BELL**

Clear yellow flowers in abundance in early spring.

2 to 3 ft.	1.50	13.50
3 to 4 ft.	1.75	16.00
4 to 5 ft.	2.75	25.00
5 to 6 ft.	4.00	

Forsythia Lynwood Gold

Masses of golden yellow flowers covering the branches in early spring. Strong bushy growth. A fine new addition.

2 to 3 ft.	1.80	16.50
3 to 4 ft.	2.25	20.00
4 to 5 ft.	3.00	27.00

Forsythia Spring Glory

A new variety bearing pale yellow flowers in great profusion, literally covering the twigs.

2 to 3 ft.	1.80	16.50
3 to 4 ft.	2.25	20.00

Forsythia suspensa fortunei**FORTUNE FORSYTHIA**

Large spreading bush with golden-yellow flowers.

2 to 3 ft.	1.50	13.50
3 to 4 ft.	1.75	16.00
4 to 5 ft.	2.75	25.00
6 to 7 ft.	5.00	

Hibiscus syriacus ALTHEA-ROSE OF SHARON

Large flowers in August and September. These should be planted in the spring only.

Single Blue, Single Red and Single White	2.00
---	------

Hydrangea arborescens grandiflora**HILLS OF SNOW**

Large flat heads of white in July and August.

	Each	Per 10	Per 100
Extra strong plants	1.65	15.00	

Hydrangea paniculata grandiflora**COMMON HYDRANGEA**

Pyramidal heads of flowers, white changing to rose-pink.

2 to 3 ft.	1.65	15.00
-----------------	------	-------

Ilex verticillata**WINTERBERRY**

Large shrub with bright red berries in the late fall.

1½ to 2 ft.	1.50	14.00
------------------	------	-------

Kolkwitzia amabilis**BEAUTY BUSH**

The slender, arching branches are covered with small bell-shaped flowers of soft salmon-pink in June.

2 to 3 ft.	1.80	16.00
3 to 4 ft.	2.25	

Ligustrum ibolium**IBOLIUM PRIVET**

Heavy glossy foliage and upright growth, resembling California Privet but much more hardy.

2 to 3 ft.	5.00	40.00
3 to 4 ft.	6.00	50.00

Lonicera tatarica**TATARIAN HONEYSUCKLE**

Large bush with arching branches which are covered in May with pink flowers. Bright red berries.

2 to 3 ft.	1.40	13.00
3 to 4 ft.	1.75	16.00
5 to 6 ft.	3.00	

Lonicera t. rubra**RED HONEYSUCKLE**

Deep red flowers make a striking display in May.

3 to 4 ft.	2.00	18.00
-----------------	------	-------

Myrica pensylvanica**BAYBERRY**

Attractive low shrub bearing masses of grayish white berries well into the winter. Will grow in poor soil.

12 to 15 in. B.&B.	2.00	18.00
-------------------------	------	-------

Philadelphus coronarius**MOCKORANGE**

The well-known "Syringa". Large shrub bearing pure white single blossoms in June and July.

2 to 3 ft.	1.50	13.50
3 to 4 ft.	1.85	17.00
4 to 5 ft.	2.50	22.50

***Philadelphus virginalis* VIRGINAL SYRINGA**

Snowy white, semi-double flowers in June and occasionally throughout the summer. One of the best.

	Each	Per 10
2 to 3 ft.	1.70	16.00

Prunus glandulosa**DOUBLE-FLOWERING ALMOND**

Masses of double pink rosettes, appearing before the leaves, make a colorful spot in the spring landscape.

2 to 3 ft.	2.25	20.00
-----------------	------	-------

Prunus maritima**BEACH PLUM**

Of spreading habit for seaside planting although it may be grown in deeper soil. Masses of white flowers in early spring are followed with reddish plums much used for jelly.

15 to 18 in.	1.40
1½ to 2 ft.	1.60

Prunus tomentosum**MANCHU CHERRY**

Large bush with pale pink flowers appearing just before the leaves. The small cherries are both ornamental and edible.

2 to 3 ft.	1.50	13.50
5 to 6 ft.	3.50	

Rosa rugosa* (see Various Roses)**Salix discolor*****PUSSY WILLOW**

A selection of the well-known Pussy Willow, producing very large catkins. May be forced easily.

3 to 4 ft.	1.75	16.00
-----------------	------	-------

A FLOWERING CRABAPPLE FOR COLOR IN YOUR GARDEN

Spiraea bumalda, Anthony Waterer**WATERER SPIREA**

Dwarf variety with flat heads of carmine-pink flowers.
June to August.

	Each	Per 10
1½ to 2 ft.	1.75	16.00

Spiraea thunbergi**THUNBERG SPIREA**

A graceful shrub with slender arching branches and narrow leaves. A profusion of small white flowers in early spring.

2 to 3 ft.	1.75	16.00
3 to 4 ft.	2.25	

Spiraea van houttei**VAN HOUTTE SPIREA**

Very graceful shrub, the arching branches bending beneath the masses of small white blossoms.

2 to 3 ft.	1.50	13.50
3 to 4 ft.	1.85	17.00

Symporicarpos albus**SNOW BERRY**

Small pink flowers, followed by ornamental white marble-shaped fruit which continues into early winter.

1½ to 2 ft.	1.25	11.00
2 to 3 ft.	1.40	12.50
3 to 4 ft.	1.75	

Syringa chinensis**CHINESE LILAC**

Graceful, arching branches with narrow leaves. Large heads of rosy-lavender flowers.

2 to 3 ft.	2.00	18.00
-----------------	------	-------

Syringa vulgaris**COMMON PURPLE LILAC**

Deservedly popular on account of its abundance of bloom and its dark green foliage seldom affected by insects.

2 ft. bushy	2.25	20.00
3 ft. bushy	3.50	30.00

Syringa v. alba**WHITE LILAC**

White-flowered type forming vase-shaped plants.

3 to 4 ft.	3.00	26.00
-----------------	------	-------

Syringa v. Hybrids

Our collection of these magnificent flowering plants embraces a wide range of color from pure white, pink and lavender to deep reddish-purple. Our "Own root" plants ensure strong healthy growth for many years.

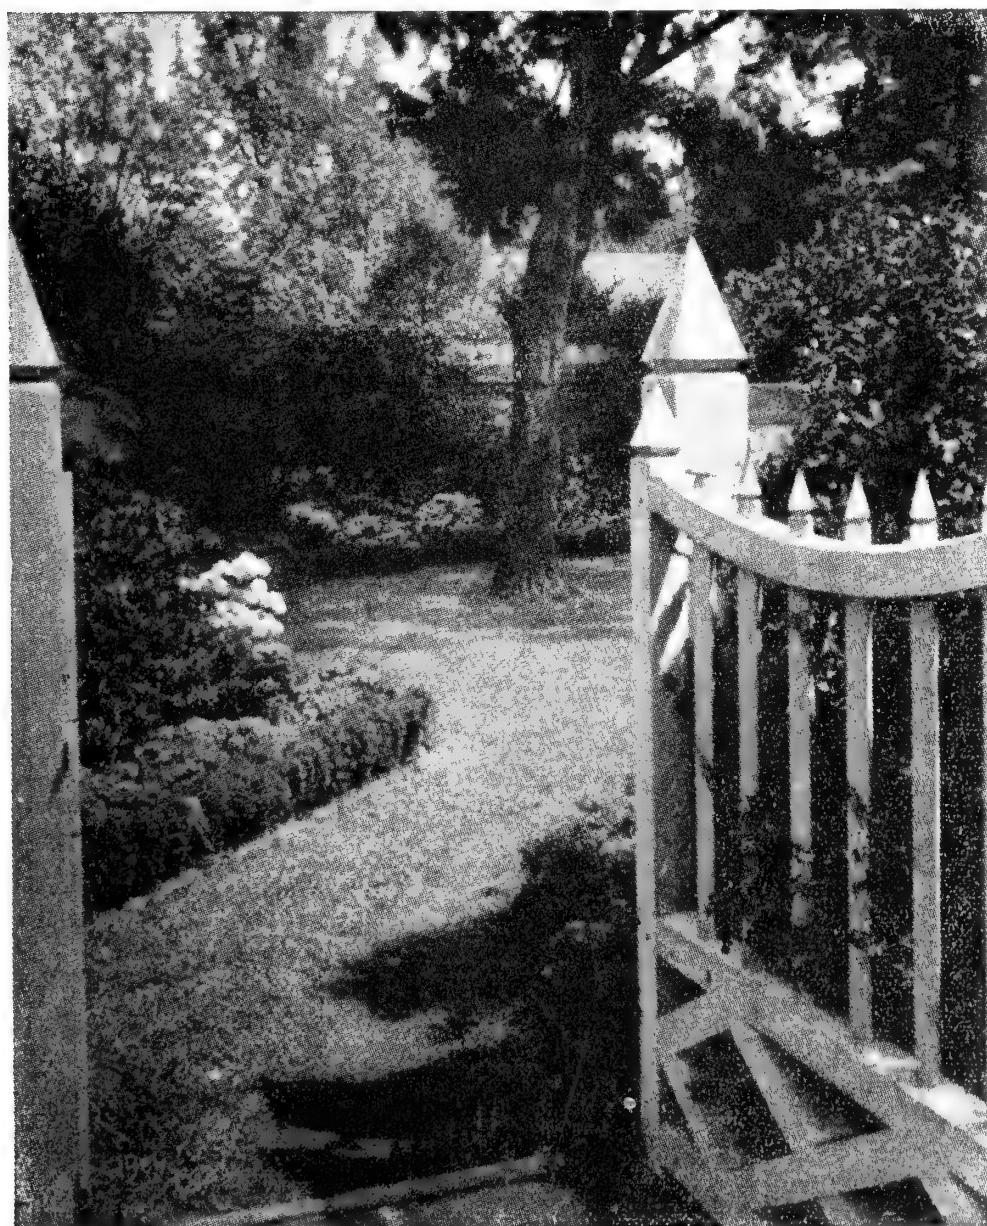

2 ft.	3.00
2½ ft.	3.50
3 ft.	4.25

After May 1st these may be dug with a ball of earth and burlapped. The additional cost of handling in this way will be as follows:

Plants 2 to 3 ft. \$.35 each Plants 3 to 4 ft. \$.60 each

SINGLE VARIETIES

Capitaine Baltet 2 ft., 2½ ft.	Very large flowers in huge loose heads. Purple blue.
Congo 2 ft.	A beautiful lively deep red, slow growth.
Lucie Baltet 2 ft., 2½ ft.	Medium-sized flowers of flesh-pink. The nearest to true pink which we have seen.
Ludwig Spaeth 2 ft.	Extra fine, deep purplish-red.
Mme. Florent Stepman 2 ft., 2½ ft.	Broad, full heads of white, faintly tinted cream at base.
President Lincoln 2 ft.	Narrow pyramidal heads of medium sized flowers of Wedgwood blue.

COME INTO THE GARDEN

DOUBLE VARIETIES

Belle de Nancy 2 ft.	Brilliant satiny rose with lighter centers.
Charles Joly 2 ft.	Deep purplish-red. Narrow upright growth.
Ellen Willmott 2 ft.	Double flower of creamy white borne on large heads.
Georges Bellair 2 ft., 2½ ft.	Large flowers in broad pyramidal clusters. Reddish buds opening into rosy-carmine flowers.
Mme. Lemoine 2 ft., 2½ ft., 3 ft.	An attractive ivory white. Upright in habit and growth.
Paul Thirion 2 ft.	Massive heads of rosy-lilac with lighter tints.
President Poincaire 2 ft., 2½ ft.	Very large flowers in dense heads of pinkish-lavender with darker shadings.

AN ATTRACTIVE SETTING FOR YOUR HOME

Vaccinium hybrid varieties (See Fruit Sec. Page 36.)***Viburnum americanum* (V. trilobum)****AMERICAN CRANBERRYBUSH**

White flowers and bunches of large red berries, which remain nearly all winter.

	Each	Per 10	Per 100
2 to 3 ft.	1.75	16.00	
3 to 4 ft.	2.25	20.00	
4 to 5 ft.	2.75	25.00	

***Viburnum carlesii* MAYFLOWER VIBURNUM**

The clusters of small pink and white flowers in early May resemble the Mayflower in color and sweet fragrance.

15 to 18 in. potted	2.25		
18 to 24 in. potted	3.00	27.50	
2 to 2½ ft. B.&B.	5.00		
2½ to 3 ft. B.&B.	6.50		
3 to 4 ft. B.&B.	8.00		

***Viburnum dentatum* ARROW-WOOD**

Compact, large-growing shrub. Flat heads of white flowers succeeded by many clusters of blue-black berries.

3 to 4 ft.	2.25	20.00	175.00
4 to 5 ft.	3.25	30.00	

***Viburnum dilatatum* LINDEN VIBURNUM**

Flat clusters of flowers in May or June. In the fall the brilliant red berries make this one of our most attractive fall shrubs.

2 to 3 ft.	2.50	22.50
-----------------	------	-------

***Viburnum opulus sterile* COMMON SNOWBALL**

Many round clusters of white flowers, like small snowballs, are borne in May and June.

2 to 3 ft.	1.60	15.00
-----------------	------	-------

Weigela rosea**PINK WEIGELA**

Showy, rose-pink flowers in abundance.

	Each	Per 10
2 to 3 ft.	1.50	14.00
3 to 4 ft.	2.00	18.00

Weigela vaniceki**RED WEIGELA**

A fine hardy variety bearing deep red flowers in abundance.

2 to 3 ft.	1.50	14.00
3 to 4 ft.	2.00	18.00

**FOR LATE SPRING AND EARLY
FALL PLANTING**

The prices of Deciduous Shrubs other than those specified "B. & B." are for plants dug with bare roots. Between May 15th and October 15th when the plants are in leaf, shrubs may be dug with a ball of earth and burlapped. This assures less wilting and delay in growth. The additional cost for handling in this way will be:

EACH	EACH
Plants 18 to 24 in. .25	4 to 5 ft.75
Plants 2 to 3 ft. .35	5 to 6 ft. 1.00
Plants 3 to 4 ft. .60	6 to 7 ft. 1.50

Vines

Ampelopsis quinquefolia
AMERICAN WOODBINE

Especially decorative in the fall, with its blue berries and red and yellow foliage.

	Each	Per 10	Per 100
Strong Plants	\$1.00	\$ 9.00	
Potted Plants after May 10	1.40	13.00	

***Ampelopsis tricuspidata (Veitchi)* BOSTON IVY**

Dark glossy green leaves. Clings closely to brick or stone walls.

2 yr. Strong	1.15	11.00
Potted after May 10th ..	1.50	

Aristolochia siphon
DUTCHMAN'S PIPE

Excellent for a dense screen, as the broad leaves overlap and make a complete shade.

Strong plants, potted	2.25	20.00
----------------------------	------	-------

Celastrus scandens
BITTERSWEET

Twining vine, bearing scarlet and orange berries in late fall.

Strong plants	1.25	11.00
---------------------	------	-------

Clematis paniculata
SWEET AUTUMN CLEMATIS

Very rapid in growth with masses of small white flowers, highly perfumed. August and September.

Strong plants, potted	1.50	14.00
----------------------------	------	-------

Hedera helix baltica (Hardy English Ivy)
See Evergreen shrubs
***Lonicera heckrottii* GOLDEN HONEYSUCKLE**

Trumpet-shaped flowers of flame-pink with yellow throat are produced throughout the summer. Strong rapid growth.

2 yr. Potted	1.50	14.00
--------------------	------	-------

Lonicera japonica halliana
HALL'S HONEYSUCKLE

Yellow and white flower. The foliage is evergreen in protected places. Excellent for a ground cover.

2 yr.75	6.00	48.00
3 yr.	1.00	8.50	75.00

Polygonum auberti CHINA FLEECEVINE

Fast, twining growth. Masses of fine, lacy white flowers in late summer and fall.

	Each	Per 10
2 yr. potted	1.50	14.00

Vinca minor (Periwinkle) (See Evergreen shrubs)**Wistaria frutescens WISTARIA**

Long, drooping racemes of purple flowers. Fine for a trellis or pergola. Rooted layers from flowering plants.

2 yr.	1.75	15.00
Potted after May 10th	2.10	

**A PLEASANT PLACE TO SPEND AN AFTERNOON**

Fruit Trees

The home grounds are scarcely complete without some fruit trees. The flavor of fruit ripened on the plant has a delicacy which more than compensates for the care expended in cultivation.

Our list comprises varieties which we believe are satisfactory for this latitude.

Fruit trees, except Apples and Pears, should be planted in the Spring only.

APPLES

	Each	Per 10
2 yr. 11/16 in. caliper	2.25	20.00

Summer Varieties

Red Astrachan — One of the early reds. Very rich and juicy. Flesh slightly acid.

Fall Varieties

Cortland — One of the McIntosh seedlings, resembling the McIntosh a great deal and even a better keeper.

Gravenstein — An old-time favorite, extra fine. Of large size with a delicate striping of yellow and red.

McIntosh — Bright red with crisp white flesh. One of the best eating apples.

Hyslop Crab — Strong growing variety which produces large crops of bright red fruit.

Winter Varieties

Baldwin — An old New England favorite. Deep red and of good size. Keeps well through the winter.

Red Delicious — Large, yellow, heavily striped red. Flesh crisp and juicy.

DWARF APPLES

These are grafted on Malling No. 9 roots which produce dwarf trees, and bear at an earlier age. Valuable for home grounds where space is limited.

2 yr. strong 3.25

MacIntosh

Red Delicious

PEARS

	Each	Per 10
No. 1, 11-16 in cal., 4 to 6 ft.	2.50	22.50

Bartlett—An early variety. Considered one of the sweetest of all. Excellent for preserving or eating.

Beurre Bosc — Late and a good keeper. Dark russet and very sweet.

Clapp's Favorite — A very early variety and exceptionally good eating.

PEACHES

No. 1, 4 to 6 ft.	1.75	16.00
------------------------	------	-------

Belle of Georgia — Early, free stone peach. White flesh with red cheek.

Elberta — Considered one of the best shippers and great for canning. Ripens in mid-September.

Golden Jubilee — A new very early yellow-flesh variety of fine shape and color.

Hale Haven — Very handsome fruit of contrasting red and yellow. Early.

CHERRIES

No. 1, 4 to 6 ft.	3.25
------------------------	------

Black Tartarian — Large sweet fruit, almost black.

Windsor — Light red, firm but juicy. Sweet.

PLUMS

No. 1 11-16 in. cal. 5 to 6 ft.	2.50	22.50
---------------------------------	------	-------

Abundance — Extra good-sized red plum and very popular for both eating and canning.

Burbank — Dark red of good quality. Very valuable as a canner or for table sauce.

BLUEBERRIES

The following varieties have been selected for their heavy-bearing qualities of exceptionally large fruit. For planting in the garden or shrub border.

1½ to 2 ft. Potted	2.25	20.00
--------------------------	------	-------

Burlington — Late. Large berry.

Earliblue — Early. Firm light blue berries.

Jersey — Late. Large, light blue berries.

Rancocas — Early. Produces freely on tall stems.

Rubel — Midseason. Upright bush. Firm berries of medium blue.

GRAPEVINES

While some of these are old standbys, yet they are still worthy of a place in any garden.

	Each	Per 10
Strong 2 yr.70	6.00
Potted Plants for late Spring planting	1.10	

Concord — Late, blue, an old popular variety.

Fredonia — The earliest blue grape, fruit large and sweet.

Niagara — Large, white, honey-sweet.

Mary Washington — A new introduction, producing large quantities of tender stalks.

LANDSCAPING COMPLETES YOUR HOME

Roses

In our northern climate, roses must be selected with a thought for hardiness and vigor as well as the bright color effects desired in the garden. Our list covers a wide range of color and we have found these to be vigorous. In this latitude the plants should be protected for the winter by heaping earth around them and then covering with a mulch so that they are covered six inches deep. In the spring prune back to live wood.

All our Roses are potted in generous-sized containers. In planting, slit the paper pot leaving the earth intact and plant about three inches deeper. They will then be well-established to grow rapidly for bloom in June and throughout the summer.

Our potted Roses will not be ready for planting in your garden before May 10th when they will be in leaf and bud. We would suggest, however, that you place your order early so that we may reserve for you the kinds you would like, as sometimes by May 10th some varieties are all sold out.

As roses need more aftercare than flowering shrubs, we cannot be responsible for their growth after they leave the nursery and any complaints must be made within ten days after being received.

We may be out of certain kinds and will substitute varieties similar in color unless otherwise directed. Please advise us if you do not wish substitutes.

We do not recommend the fall planting of roses for this latitude.

HYBRID TEA ROSES

These will give an abundance of bloom from June until frost. They should be fertilized liberally every year and given some protection from the sun and frost during the winter.

	Each	Per 10
Potted Plants	\$1.95	\$18.00
(Unless otherwise noted)		
Available after May 10th		

Betty Uprichard — Beautiful coppery pink with orange shadings. Back of petals carmine-pink. One of the best.

Burnaby (Patent No. 1314) — Canary yellow bud opening into flowers of soft yellow. \$2.80 each.

Charlotte Armstrong — Blood red buds and cerise flowers on long stems.

Chrysler Imperial (Patent No. 1167) — Long buds of dark velvet red opening into sparkling red flowers. "All America Rose" selection 1953. \$2.90 each.

Condesa de Sastago — Deep coppery pink petals colored golden-yellow on the reverse side making a charming two-toned flower.

Crimson Glory — Deep vivid crimson blooms on vigorous bushes. Very fragrant.

Eclipse — Distinctive tapering buds of yellow. Abundant bloomer. One of the best all-purpose yellow Roses.

Etoile de Holland — One of the world's best. Very hardy and vigorous. Beautiful crimson-red blossoms.

Fort Vancouver (Patent No. 994) — Large full blooms of medium pink. Fragrant. Vigorous growth and good foliage. \$2.75 each.

Forty Niner (Patent No. 792) — A bicolor, with outside of petals chrome-yellow and inside vivid oriental-red changing to cherry-red as it ages. \$2.60 each.

Frau Karl Druschki — One of the very best of the pure white varieties.

Helen Traubel (Patent No. 1028) — Long pointed buds opening into flowers of luminous pink suffused with apricot lights. \$3.00 each.

K. A. Victoria — Beautiful, well-formed, pointed buds of creamy-white.

Kordes Perfecta (Patent No. 1604) — Creamy white buds opening into large, full flowers of a charming combination of pink, cream and yellow. \$3.75 each.

Margaret McGredy — Brilliant red, with yellow lights at base of petals. Blooms freely.

Mojave (Patent No. 1176) — Apricot-orange with nasturtium-red and scarlet. Long pointed buds. \$3.00 each.

Mrs. E. P. Thom — Fine, dependable yellow, retaining its deep rich color without fading.

Mrs. P. S. duPont — Continuous bloomer on extra strong canes. Flowers deep golden-yellow, both in bud and flower.

New Yorker (Patent No. 823) — An enormous clear, sparkling, red rose that holds its color. Buds darker in color than the open blooms. Very exceptional. \$2.90 each.

Peace (Patent No. 591) — Oval buds golden-yellow etched with pink. As they open, the color changes from canary-yellow, to pale golden, to iridescent cream. Flowers are 5 inches across. \$2.60 each.

Pink Dawn — Exquisite pink with deeper shadings, giving an abundance of fragrant bloom.

Pink Favorite (Patent No. 1523) — Pointed buds and flowers of clear deep pink. The foliage is glossy green and mildew resistant. \$2.80 each.

Queen Elizabeth (Patent No. 1259) — Grandiflora. An abundance of flowers of good size, soft rose pink with flesh pink lights. \$2.80 each.

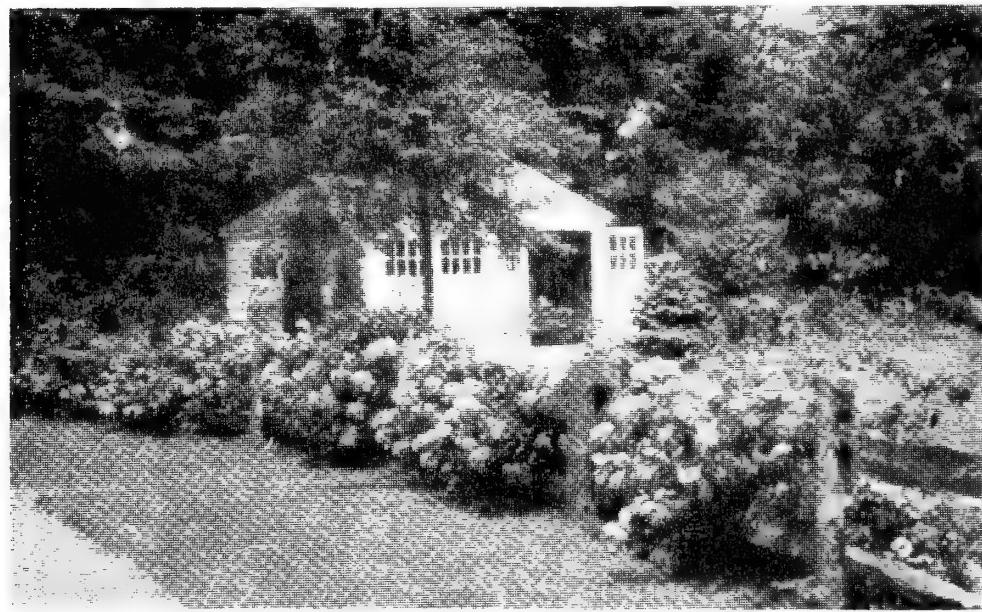

Radiance — A strong, vigorous and hardy variety bearing large rose-pink flowers, globular in shape.

Red Radiance — Rosy red variety. Fully equal in all points to the above.

Soeur Therese — Long pointed buds of rich yellow with reddish markings at base of petals. Fragrant.

Starfire (Patent No. 1742) — Grandiflora. All-America Award 1959. Glowing, currant red. Excellent foliage and growth. \$3.50 each.

White Knight (Patent No. 1359) — A fine new introduction of satiny white flowers that do not discolor. All-America Award for 1958. \$3.30 each.

CLIMBING ROSES

	Each	Per 10
Potted Plants	\$1.95	\$18.00
(Unless otherwise noted)		
Available after May 10th		

Blaze (The New Blaze) — Bright scarlet-red flowers of large size borne freely on strong stems. Often a recurrent bloomer.

City of York — Attractive semi-double flowers of creamy white of wild-rose fragrance.

Climbing American Beauty — A variety with carmine-red blooms. Has a tendency to fade.

Golden Showers (Patent No. 1557) — Rich yellow flowers of large size. This new variety blooms over a long period. \$3.00 each.

Mary Wallace — Charming flowers of deep, warm pink. borne profusely on long stems. Excellent for cutting.

New Dawn — A climbing rose which is ever-blooming. Delicate deep blush or shell-pink of large size.

Paul's Scarlet — Large flowers on long stems are borne in profusion. Bright scarlet-red making an effective display.

Primrose — Clusters of canary-yellow flowers which hold their color well until the petals drop. Plant hardy and vigorous.

DWARF AND FLORIBUNDA ROSES

These Roses are harder and of more vigorous habit than Hybrid Teas. When established, they seldom need replacing for a long period of years. The flowers, many of them the size of Hybrid Teas, are carried in thick clusters and bloom profusely the entire season until heavy frosts.

	Each	Per 10
Potted Plants	\$1.95	\$18.00
(Unless otherwise noted)		
Available after May 10th		

Bellina (Patent applied for) — Delightful peach-pink with yellow undertones. Compact growth and blooms continuously. \$2.75 each.

Betty Prior — Single carmine buds opening into deep shell-pink flowers.

Donald Prior — Semi-double bloom of deep glowing red.

Else Poulsen — Semi-double bright rose-pink flowers in abundance. Strong clean growth.

Encore (Patent No. 1662) — Rose-pink with creamy pink lights. Good sized flowers in abundance. \$2.65 each.

Fashion (Patent No. 789) — Entirely new color in Roses — luminous coral suffused with gold. Greatest award winner of all times. \$2.50 each.

Floradora — Buds pinkish-orange opening into a brilliant cinnabar-red touched with orange-scarlet and geranium-red. Double flowers.

Fusilier (Patent No. 1709) — Rich orange red flowers, with many frilled petals. All-America Award for 1958. \$2.75 each.

Gold Cup (Patent No. 1683) — Golden-yellow which does not fade. Fragrant. All-America Award for 1958. \$2.75 each.

Goldilocks (Patent No. 672) — Rich, golden-yellow flowers. cupped in early stages. Up to 3½ in. across. \$2.20 each.

Jimminy Cricket (Patent No. 1346) — Tangerine-red buds, opening to coral-orange. Glossy green foliage. \$2.30 each.

Lafayette Improved — Double flowers borne freely in clusters on long stems. Bright cherry-red.

Ma Perkins (Patent No. 1143) — Coral shell-pink, fortified by shades of red in the outer petals and a touch of yellow at the base. Very fragrant. \$2.40 each.

Red Pinocchio (Patent No. 812) — Rich scarlet blooms 3½ in. across borne in clusters. Bushy, upright growth and free flowering. Wild rose fragrance. \$2.15 each.

Rose Elfe — Large flowers of clear pink, borne in clusters on long stems.

Snow Bank — Double flowers of pure white give a suggestion of the name.

Spartan (Patent No. 1357) — Burnt-orange buds opening to a reddish-coral. \$2.90 each.

Vogue (Patent No. 926) — Immense clusters of perfectly formed, Hybrid-tea-like blooms up to 4 in. across. Brilliant cherry-coral. \$2.30 each.

White Bouquet (Patent No. 1415) — Buds light cream opening into pure white gardenia-like flowers. All-America Award 1957. \$2.80 each.

VARIOUS ROSES

Hugonis — Strong fast growth and may be used in a shrub planting. The exquisite soft yellow single flowers are borne in sprays in May and June. Potted \$1.95 each; \$18.00 per ten.

Rosa rugosa — Bushy vigorous growth with glossy green foliage. Single red flowers followed by attractive red hips. 12 to 18 in. \$1.25 each; \$11.50 per 10.

Peonies

Wherever one desires continuing bloom year after year from plants in the garden, we recommend the planting of Peonies. Hardy in almost all parts of this country and Canada, the vigor of the plants and the wealth of blooms in their lovely shades of white, pink and rich reds give delightful effects both in the garden and as cut flowers. When once established, the plants increase in size and quality for many years and need not be disturbed. They will persist in many localities where other perennials fail to grow and their increasing use testifies to their popularity.

Peonies are especially decorative as cut flowers and many amateur enthusiasts give thousands every year to churches and hospitals.

We have endeavored to consistently maintain our free-blooming Cherry Hill Strain by selective propagation and the large, vigorous plants which we furnish give satisfactory results.

Culture of Peonies

Peonies will grow in almost any location, but do best when not planted too near large trees. However, where they are given some shade from the hot afternoon sun, the delicate colors may be retained. A good garden soil of loamy texture, where there is drainage, will produce satisfactory roots and flowers. In this type of soil, no especial preparation is necessary except to loosen and break up any lumps.

You may use any garden fertilizer available or bone meal. Wood ashes containing lime and potash have proved very satisfactory. The amount will be determined by the size of the plant, but a good handful is a rough measure. Too much rain may cause botrytis, a fungus which causes the stems to wilt and turn black. We find that ground limestone is one of the best correctives and this may be used freely. The diseased stems should be burned.

The roots should be planted so that the buds are about two inches below the surface when the ground is settled around them. Too deep planting will result in good foliage but no blooms. This is usually the cause for lack of blooms. Do not attempt to replant Peonies in soil where they have grown before, and if the same location is desired, the earth should be removed and replaced by fresh earth from another part of the garden. When the buds attain about an inch in size, they exude a sticky honey which is attractive to ants, but these seldom do harm and will disappear in a short time.

ANNISQUAM PEONY
One of Our New Introductions

Peonies do best if transplanted in the autumn months from **September** until **November** when the buds for the next year are dormant. They may be planted in the spring, but it should be in early April before the buds have pushed through the ground. The first season will not produce large and often not typical blooms. They should be treated as permanent plants and will grow and thrive from ten to twenty years in one location.

SHIPPING CHARGES

When shipping Peonies, we cut off the tops leaving compact plants. Except in large quantities these may usually be sent by parcel post more cheaply than by express. If you **wish your order shipped in this way, please include 30 cents for the first root and 10 cents for each additional root.** We will pack plants securely so that they will arrive in a fresh condition ready to be put in your garden. Larger shipments may be sent express collect.

DOUBLE-FLOWERING PEONIES

For your convenience we have listed these according to color.

Prices quoted are for strong, healthy plants with at least three to five buds.

For two-year clumps, add 50%.

For three-year clumps, double the price.

When ordering five or more of a single named variety, deduct 10% of quoted prices; e. g. Five or more of a variety priced at \$1.50 each would be \$1.35 each.

(Double Peonies continued on next page)

For shipping charges see Page 44.

White and Blush

Amberglow — Strong upright stems of medium height bearing dark green leaves which have a peculiar fluted effect. The bud is delicate pink and the flower globular, flesh pink with salmon lights. Late but opens well and is noticeable for its delicate coloring and crisp freshness. A Cherry Hill production. \$4.00.

Arthur H. Fewkes — A variety originated by the late Arthur H. Fewkes and named by his family. Strong stems of medium height. Wide petals of fine form and texture, ivory white with salmon shadings at base of petals which give a buff or salmon light throughout the flower. Late \$4.00

***Avalanche** 8.7 — Fine flowers of convex form, ivory-white sometimes with a touch of crimson on center petals. Extra good. Late midseason. \$1.25.

***Baroness Schroeder** 9.0 — Well-formed globular flowers of white with a soft baby-pink center changing to white. Very satisfactory. Late midseason. \$1.50.

Cornelia Shaylor 9.0 — Large, full flowers of pyramidal form. Soft pink and white. \$1.50.

***Duchesse de Nemours** 8.1 — Broad, cup-shaped outer petals of white and center of sulphur-yellow. Blooms freely. Early midseason. \$1.25.

***Enchanteresse** 8.9 — Large globular flowers of creamy-white sometimes flecked carmine. An exceptionally fine late variety. \$1.50.

***Festiva Maxima** 9.3 — Exceptionally large ivory-white flowers with a fleck of crimson in the center. Strong stems and foliage. Midseason. \$1.25.

***Frances Willard** 9.1 — Strong stems surmounted by large flowers of lovely cream white. Late midseason. \$1.50.

Frankie Curtis 8.9 — Large white blossoms borne on stiff stems. Midseason. \$2.00.

Golden Dawn 8.6 — Outer petals creamy white with center of deep sulphur yellow. A so-called "yellow" peony. \$1.50

***Harry F. Little** — Gold Medal A.P.S. The delicate tinted buds open into large white flowers tinted with cream. Broad petals somewhat notched. \$3.00.

***James Kelway** 8.7 — Exquisite white with golden glow. Very fragrant. Early midseason. \$1.50.

Jubilee 8.9 — Immense flat flowers of ivory-white. Stems long but inclined to be weak. Midseason. \$1.50.

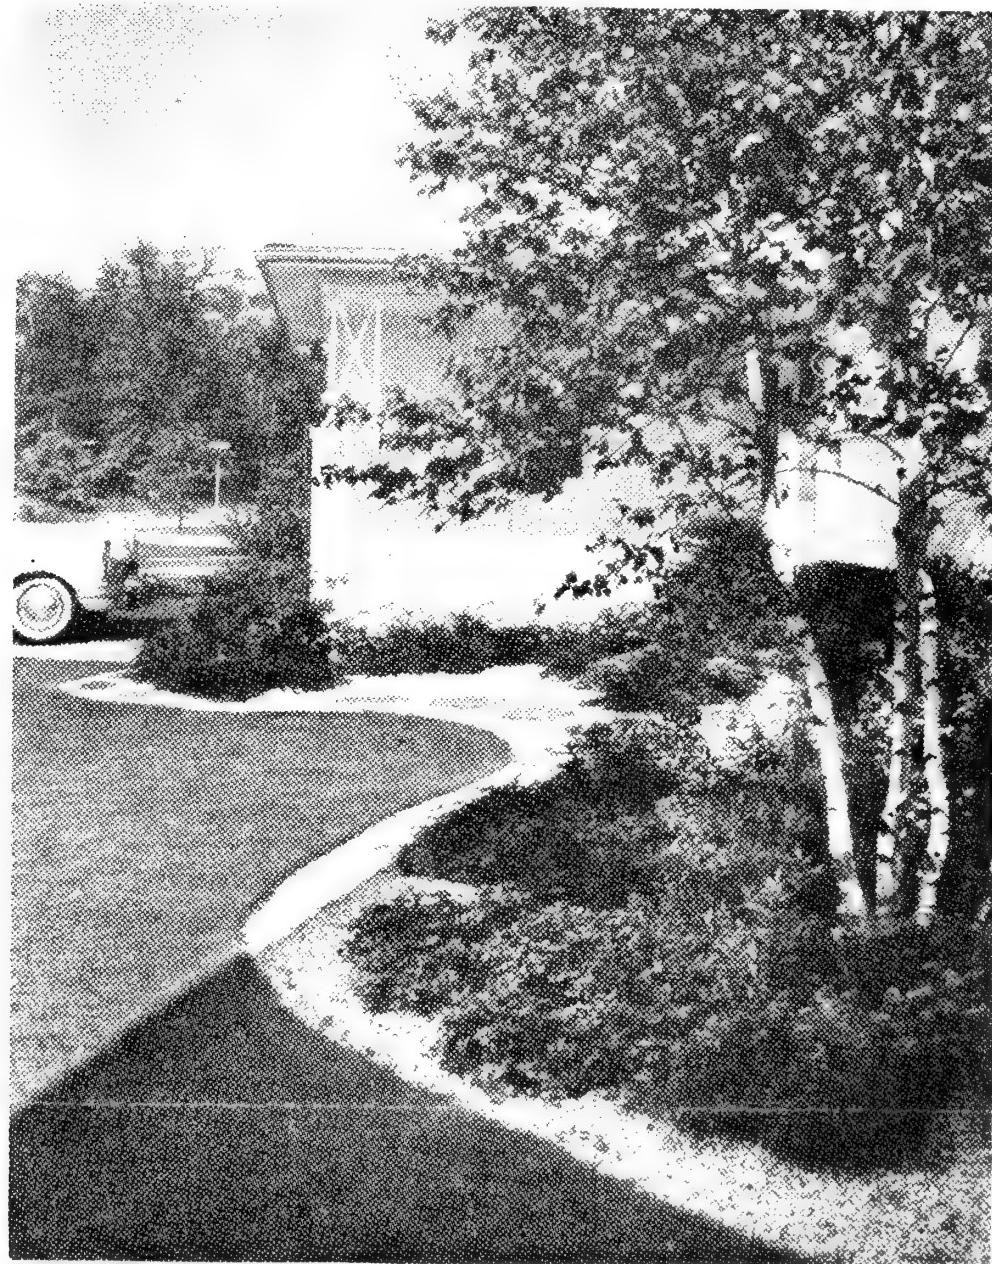

***Kelway's Glorious** 9.8 — Buds slightly tinted pink open into large flowers of glistening white. Fragrant. Late midseason. An exceptionally fine variety. \$3.00.

***Le Cygne** 9.9 — Charming, milk-white with broad, rounded petals. The large symmetrical blooms are never coarse. Midseason. An extra fine variety. \$3.00.

Madame Emile Lemoine 8.9 — Soft flesh-white. Midseason. \$1.50.

***Madame Jules Dessert** 9.4 — Large flowers with broad petals of creamy-white lighted with buff and salmon shades. Midseason. \$1.50.

Mrs. A. M. Brand 9.0 — Very large, rather flat flowers of pure white. Fragrant. Tall strong stems. Late. \$2.00.

CURVED PLANTINGS ADD CHARM

***Mrs. A. O. Norton** — Very large flowers with broad, overlapping petals of pure white suffused yellow at the base. Late midseason. A fine new variety. \$10.00.

Mrs. Harriet Gentry 8.9 — Glistening white with a greenish tinge at base of petals. Late. \$2.00.

Nimbus 9.1 — White with blush center. Fragrant. Excellent habit and gives a charming effect. Late. \$1.50.

Nymphaea 8.8 — A Cherry Hill production. Flat flowers of creamy-white petals mixed with yellow stamens. The edges of the petals are somewhat rolled, giving a water-lily effect. Midseason. \$1.50.

***Priscilla Alden** 9.1 — Pure white with broad rounded petals. Noticeable in the garden for its fresh appearance. A fine variety. Early midseason. \$2.00.

Rapture — A Cherry Hill production. Very large, the outer petals broad and rounded, center petals shorter giving the blooms a cupped effect. Pure white suffused with a creamy light. Pleasant fragrance. Midseason. \$7.50.

Summel Cloud — A Cherry Hill production. Faint pink buds open into well-formed flowers with wide outer petals of white and center of narrower petals having a creamy light. Long, strong stems. We consider this to be superior to Kelway's Glorious. Midseason. \$3.00.

Thomas C. Thurlow 9.1 — A Cherry Hill production. Broad petals of salmon-flesh changing to white, lighted by narrow petals edged with yellow. Does best when well-established. Fragrant. Midseason. \$2.00.

Light Pink

***Annisquam** — Large globular blooms of tender pink which retain their coloring until the petals fall. The petals are broad and rounded forming a cupped-shaped flower of smooth attractive appearance. Good both as a cut flower and for garden use. Pleasant fragrance. Midseason. A Cherry Hill production. We consider this one of our finest productions. \$15.00.

Coronation 8.5 — Delicately tinted buds of pale pink. The cup-shaped blooms give a charming effect. Early mid-season. \$1.50.

***Edwin C. Shaw** 9.1 — A Cherry Hill production. Very large flowers of flesh-pink with broad rounded petals. Symmetrical in form and cupped in shape, this is especially attractive. Fragrant. Late midseason. \$2.50.

***George W. Peyton** — Delicate flesh pink showing amber lights at base of petals. Late. A very fine new variety. \$4.00.

***Grandiflora** 8.8.—Flat flowers of silvery shell-pink. Pointed petals. Very late. Extra good. \$1.50.

Hansina Brand 9.0 — Flat flowers of deep shell-pink with salmon lights. \$3.00.

***Katharine Havemeyer** 9.0 — A Cherry Hill production. Large blooms of light rose-pink. The broad petals are cupped in the center giving a rosebud effect. Fragrant. Late midseason. \$2.50.

Lady Alexandra Duff 9.1 — Very broad petals of soft blush-pink with flesh tints. Very satisfactory variety. Mid-season. \$1.50.

***M. Jules Elie** 9.2 — Globular blooms, outer petals recurved, resembling huge chrysanthemums. Clear medium pink with a silvery tinge. Midseason. \$1.50.

***Myrtle Gentry** 9.0 — Large, full flowers of rosy-white or pale pink with salmon lights; broad, rounded petals. An outstanding variety. \$2.50.

***Nick Shaylor** 9.2 — Large globular blooms of creamy-white. Pink and salmon lights at base of petals suffuse the whole flowers giving a charming effect. Late. \$4.00.

***President Wilson** 9.3 — A Cherry Hill production. Large, bright rose-pink changing to shell-pink as flower opens. Petals broad and overlapping with cupped center. The blooms will last a long time and hold their delicate coloring to the end. Spicy fragrance. Late. \$2.50.

***Pride of Essex** 8.9 — A Cherry Hill production. Large, cup-shaped blooms of deep shell-pink borne on strong upright stems. Clear fragrance. Midseason. \$1.50.

***Reine Hortense** 8.7 — Large, compact flowers with broad rounded petals of soft flesh color with some crimson splashes. \$1.25.

Rose Shaylor 9.1 — Flesh-pink to creamy-white. Erect, strong growth. Midseason. \$2.00.

***Therese** 9.8 — Large soft shell-pink with lighter center. Vigorous and free-blooming, this is one of the most popular and satisfactory varieties which we have. Early mid-season. \$2.00.

***Venus (Kelway)** 8.3 — Exquisite pointed buds. Delicate shell-pink and white. Strong stems and free blooming quality. Very fine. Midseason. \$1.25.

***Walter Faxon** 9.3 — Bright shell-pink with salmon shades. Almost the only really pink peony. Medium-sized blooms. Midseason. \$1.50.

Deep Pink

Auguste Dessert 8.7 — Bright rose-pink with silvery edges. Especially fine for garden effects. Midseason. \$1.50.

***Edulis Superba** 7.6 — Deep rose-pink especially good in the garden. Early. \$1.25.

H. A. Hagen 8.2 — Cup-shaped blooms, deep rosy-pink. Late. \$1.50.

***Jules Calot** 7.2 — Globular blooms of deep rose-pink of a pleasing shade not often found. Blooms freely. Late. \$1.25.

***Lillian Gumm** 8.9 — Immense, very full double blooms of rose-pink. Late. \$1.50.

Martha Bulloch 9.1 — Very large flowers of bright old rose pink. Tall growth. Late. \$2.00.

***Merrimac** — A Cherry Hill production. Very large globular blooms of deep rose-pink of an unusual shade. Strong stems and foliage. Pleasant fragrance. Late, but always opens well. \$3.50.

***Phyllis Kelway** 9.0 — Bright pink, yet with delicate coloring which gives a fresh and charming effect. Strong erect stems. Fragrant. Late. \$1.50.

***Rachel** 8.3 — Fresh, soft rose. Strong stems. Late mid-season. \$1.25.

Souvenir de Louis Bigot 9.1 — Large blooms of rich salmon pink with silvery lights. Free blooming and extra fine. Midseason. \$1.50.

Red

***Adolphe Rousseau** 8.5 — Large, sometimes semi-double flowers of deep garnet. Very popular variety as its height and color make it conspicuous in the garden. Early mid-season. \$1.25.

***Charles McKellip** 7.8 — Globular blooms of brilliant red. Blooms freely. Late midseason. \$1.25.

***Cherry Hill** 8.6 — A Cherry Hill production. Deep garnet with a sheen which makes a bright appearance in the garden. Center petals are intermixed with golden stamens. The first of our double varieties to bloom and the tall strong stems carry the flowers well. A distinct garden variety. \$1.50.

***Felix Crousse** 8.4 — Brilliant crimson with a deeper ruby-red center. Blooms freely and vigorously. A very satisfactory variety. Midseason to late. \$1.25.

Grover Cleveland 8.2 — Fine dark crimson. Late. \$1.50.

***Karl Rosenfield** 8.8 — Brilliant dark crimson. Blooms freely and one of the best of this color. Midseason. \$1.50.

***Mary Brand** 8.7 — Brilliant deep red which does not fade. Midseason. \$1.50.

(*Double Peonies continued*)

***M. Martin Cahuzac** 8.8 — Deep garnet coloring makes this one of the very darkest of peonies. Globular flowers of medium size. Midseason. \$2.00.

Onondaga — Large, deep red flowers are borne on tall stems making an accent in the garden. Early midseason. \$2.00.

***Philippe Rivoire** 9.2 — Fine dark crimson. Flowers of medium size hold their color until the petals fall. Fragrant. Midseason to late. \$2.50.

*Varieties in this class we have found to be the best and most reliable for color and free-blooming quality. We recommend these if you are in doubt as to selection.

Single Peonies

For shipping charges, see Page 44.

Prices quoted are for strong, healthy plants with at least three to five buds.

Two-year clumps, add 50%.

Three-year clumps at double price.

When ordering five or more of a single named variety, deduct 10% of quoted prices; e. g. five or more of a variety priced at \$1.50 each would be \$1.35 each.

The number following each name is the percentage rating given by the American Peony Society.

The single flowered varieties are the first to bloom, but the side buds will continue to bloom over a considerable season. They are specially satisfactory for garden effects as they withstand the rains and wind where the heavier doubles might be beaten down. The large yellow centers of stamens give a distinct note.

Adana — Delicate shell pink with bright golden stamens. Long buds resembling roses, open with broad petals of good substance. \$2.00.

***Clairette** 8.1 — Long arching stems bearing large pure white flowers. The petals are long and silky. \$1.50.

***Helen** 8.9 — A Cherry Hill production. Stems very tall and erect with broad foliage. A double row of broad, cupped petals of deep shell-pink surround a mass of golden stamens. The earliest to bloom. \$1.50.

Le Jour 8.6 — Large, pure white petals of good substance and a fine variety. \$2.00.

***L'Etincelante** 8.4 — Broad petals of bright pink with silvery borders. Especially attractive in the garden. \$1.50.

***Mellen Knight** 8.4 — Strong erect stems bearing rich crimson flowers with golden centers. The petals are smooth and rounded. \$1.50.

Mischief 8.6 — Clear, even pink flowers, borne in abundance on strong stems. Later than most singles and is attractive for a long time. \$1.50.

***Pride of Langport** 8.9 — Deep shell-pink with compact center of golden stamens. Stems strong and an abundance of bloom. \$1.50.

***The Bride** 8.4 — Large white flowers borne on strong stems. A fine variety. \$1.50.

Japanese Type Peonies

For shipping charges, see Page 44.

Prices quoted are for strong, healthy plants with at least three to five buds.

Two-year clumps, add 50%.

Three-year clumps at double price.

When ordering five or more of a single named variety, deduct 10% of quoted prices; e. g. five or more of a variety priced at \$1.50 each would be \$1.35 each.

The number following each name is the percentage rating given by the American Peony Society.

These so-called Japanese Peonies which have been grown in this country are those which have one or two rows of petals and centers of stamens much thickened. These latter are almost devoid of pollen and in some varieties make thick cushions of golden yellow. In others the stamens are self-color tipped or crusted with yellow. The effects are beautiful and distinct and are charming for the garden and as cut flower decorations.

***Ama-no-sode** 9.2 — Large, bright rose-pink with lighter tints. Extra. \$3.00.

Charm 9.2 — Deep red with well-formed center of yellow. The petals are smooth and rounded making a very attractive flower. Late. \$2.50.

Currant Red — Lively cerise-red petals, stamens yellow, marked with self color. Attractive in the garden. \$2.50.

Emma — Broad petals of bright pink. Very fine variety. \$3.00.

***Glow** — Deep cerise-pink surround a cushion of narrow petals overlaid and crusted with straw yellow. A bright tone in the garden. \$1.50.

***Hari-ai-nin** 8.9 — Dark maroon-red petals with center composed of broad stamens the same color of petals but heavily tipped yellow. Total effect of stamens is lines of red and yellow. \$2.50.

Jeffries' Crimson — Broad, rounded petals of deep crimson with a satiny finish. Compact mass of yellow stamens makes a flower which strikes a distinct note in the garden. \$1.50.

***King of England** 8.6 — A rich shade of carmine, stamens self-color edged golden. \$1.50.

***Magnolia** — Bright rose-pink with overlapping petals. Center of enlarged stamens of chrome-yellow which are crusted with golden yellow. Strong vigorous growth. Extra good for garden effects. A Cherry Hill production. \$2.50.

***Mikado** 8.6 — Rich red petals and broad center of stamens of deep yellow edged in red. \$1.50.

Purity — White petals enclose a cushion of yellow stamens. \$1.50.

Samoset — Broad petals of vivid pink surround a cushion of orange yellow stamens. Tall strong stems bear many flowers. New. \$2.50.

Soshi — Deep crimson and gold. Very effective in the garden. \$1.50.

Tokio 8.9 — Tall, strong stems, flowers of rose-pink with large yellow center. Blooms freely. \$1.50.

***White Gull** — A double row of broad rounded petals of white surround a cushion of yellow stamens. Red stigmas. Much admired by all who have seen it. A Cherry Hill production. \$3.00.

*Varieties in this class we have found to be the best and most reliable for color and free-blooming quality.

PEONY COLLECTIONS OF UNUSUAL VALUE

COLLECTION NO. 1

Karl Rosenfield 8.8 — Brilliant dark crimson. Midseason.

M. Jules Elie 9.2 — Clear pink with silvery light. Early mid-season.

Priscilla Alden 9.1 — Large, pure white. Early.

Coronation 8.5 — Delicately tinted petals of pale pink. Early midseason.

Regular Price \$6.50 — Collection Price \$5.00

COLLECTION NO. 2 — JAPANESE TYPE

Ama-no-sode 9.2 — Large, bright rose-pink with lighter tints.

Glow — Deep pink with a cushion of narrow petals overlaid and crusted with straw yellow.

Hari-ai-nin 8.9. — Dark maroon-red, stamens tipped yellow. Late midseason.

White Gull — Pure white, golden center. Midseason.

Regular Price \$10.00 — Collection Price \$8.75

VARIETIES NOT LISTED

We have many other kinds not listed. Should you wish any special variety, we will quote you if available.

ASSORTED COLLECTIONS

For those who wish a collection without names, we can furnish a very good assortment in our selection of colors at \$10.00 per ten.

In Japanese-type Peonies we can furnish an assortment of colors at \$11.00 per ten.

These are all good varieties and would be worth much more if sold to name.

For shipping charges see Page 44.

Fertilizers, Insecticides and Fungicides

BONE MEAL — 2-23 — Organic source of nitrogen and phosphorus, excellent bulb food.

10 lb. pkg.	\$1.45

10 lb. pkg.	1.40
25 lb. pkg.	2.95

NATIVE PEAT — Fine ground. Very good when added to soil for Rhododendrons, Azaleas, Laurel, etc.

25 to 28 lb. bag90
------------------------	-----

PEAT MOSS — Fine ground for garden use. Good for mulching or adding humus to soil.

Large bale	4.50
------------------	------

The above nine items are for truck delivery only.

No mail or express.

CHLORDANE 10% DUST OR SPRAY — Controls cut-worms, wire worms and most beetles. Also leaf miner on Birch and Elm trees.

1 lb. can85
-----------------	-----

D.D.T. DUST 10% — Controls Japanese beetle, all caterpillars, leaf hoppers and thrips.

1 lb. canister75
3 lb. canister	1.55

MALATHION 50% — Contains 50 per cent malathion for controlling spider mites, aphids and Japanese beetles.

4 oz. bottle	1.10
--------------------	------

POMO-GREEN — DUST OR SPRAY — Controls insects, black spot, mildew and mites. For Roses, flowers and ornamentals.

1 lb. canister	1.45
3 lb. canister	3.25

SEYMOUR SMITH "SNAP CUT" #119 — One of the best moderate priced hand pruners for all around garden use

3.25

SPIDER MITE DUST OR SPRAY — Contains Aramite for control of red spider on Roses. Also spider mites on Arbovitae, Spruce and other evergreens.

1 lb. sifter canister85
-----------------------------	-----

WETTABLE & DUSTING SULPHUR — A summer fungicide containing 95% sulphur. Controls black spot and mildew on roses, also spider mite on evergreens.

1 lb. canister50
----------------------	-----

Arrangement & Planting

An effective planting is an asset to the homeowner and community.

For those in doubt as to the plants and arrangements of their grounds we are always glad to give assistance. It is a great help if you can bring a few snapshots with measurements when coming to the nursery.

In cases of more extensive plantings we suggest you telephone or write for an appointment to have a representative call. He will gladly give you suggestions and estimates on work to be done.

PLANTING

Many people wish to do their own planting. Dig an ample hole, somewhat wider and deeper than the root spread. Put some loam in the bottom and place the plant so that it will be a little deeper than when growing in the nursery. If plants have a ball of earth the burlap may be left on, only cutting away the top. When the hole is two-thirds full sprinkle a handful of fertilizer in the trench and cover with earth. Fill trench with water and add loose soil until hole is filled. The first summer soak thoroughly once a week.

MAINTENANCE AND CARE

Evergreens and shrubs, when planted near the house, will in a few years, grow too large for the space assigned them and will mar the effect which was originally intended. Instead of waiting until they are too large and then pruning them drastically, it is much better to give them a light pruning every year. By this method no large branches are cut, and the planting will continue for many years improving in value and appearance.

It is better to make a light application of fertilizer every year rather than too much at one time. Especially near the house, the soil is often dry and lacking in plant food.

EFFECTIVE PLANTING MAKES AN ATTRACTIVE HOME

GIFT CERTIFICATES

We are prepared to issue Gift Certificates, redeemable by us. This certificate will bear the recipient's name and yours as donor. For anyone interested in a garden or planting the home grounds this makes a very acceptable Christmas or Anniversary gift.

For those interested in plants and flowers, we would recommend the Massachusetts Horticultural Society. Membership makes available all important books on gardening, lectures, the publication of Horticulture, etc. The annual membership is \$8.00. Apply to the Secretary, Massachusetts Horticultural Society, Horticultural Hall, Boston 15, Mass.

Home office and section of gardens of Cherry Hill Nurseries, West Newbury, Mass.

Condition of Sale

We guarantee all our freshly dug nursery stock to be true to name and in first class condition when shipped so that with proper aftercare, losses will be reduced to a minimum.

We will replace, or refund the purchase price of any plant material that proves other than represented; however, any labor incidental to planting replacements must be paid by the purchaser. Our guarantee is void on accounts not paid within thirty days after date of invoice.

TERMS: One to four plants of a single size and variety at the each rate; five to twenty-four at the ten rate; twenty-five or more at the hundred rate when such rate is given. These prices apply to our usual first grade stock, but when a tree or plant of outstanding quality is selected, a special price is charged.

TERMS: Charge accounts for thirty days' credit may be opened by new customers giving satisfactory bank or trade references, but to those unknown to us, we ask for cash with order.

All prices for stock are here at the Nursery, and packing will be charged at cost. We are equipped to make truck delivery on full loads throughout New England and the surrounding territory at a cost which in most cases is not greater than the combined cost of packing, freight or express. This is a very satisfactory method as plants are delivered fresh, directly to the planting site. On small orders, less than a full truck load, we can usually make combination load deliveries within a radius of 40 miles of the Nursery, the cost being divided depending on the size of the order. These, of course, cannot be delivered on any specified date. All plants, however, not balled will be packaged or wrapped so that if the customer is not there on arrival, they will keep safely for several days.

Due to modern methods of handling, the transplanting season has been greatly extended. Our spring season commences usually the last of March or early April and continues through June during which time almost all plants may be safely moved. Our fall season starts with the planting of evergreens in late July and deciduous material from October until the ground freezes.

Owing to the uncertainty of supplies, we reserve the right to change prices without notice.
